

AI CPT codes

What exists. What changes next.

**Coding ≠ coverage
≠ payment.**

A reporting code is the beginning of the reimbursement question.

Three established examples.
Ten emerging services to watch.

A maintained reference from HealthIT.com

healthit.com/briefs/ai-cpt-codes

Educational reference. Verify full coding and payer rules before use.

A code is a starting point.

01 Coding

Does the service match the work and date of service?

02 Coverage

Does the payer cover this indication and setting?

03 Payment

Which rules and amount apply to this provider and claim?
